Announcements:

Send a copy of this report to Lynn Lovell—W8MLL, Marion County EC—use more than one page if needed

All stations standby for our Wednesday night NET anyone in or around Marion Ohio and those stations within range of this repeater.

Good evening everyone. This is the regular Wednesday night NET for the Marion Amateur Radio Club. We meet every Wednesday night at 8:00pm on the WW8MRN repeater at 147.3000mhz.

The purpose of this NET is to maintain contact with other amateurs and to sharpen our emergency operating skills.

During an emergency we may be called upon to handle backup emergency communications. We do this by practicing a disciplined and controlled NET operations. All communications are directed by and through a NET controller.

Your NET controller for tonight is (phenetic call sign), and my mane is (first name).

#1

Hearing none.

We will begin check-ins with any emergency or priority traffic. Anyone with emergency or priority traffic contact NET control at this time.

#2

We will now move on to normal check-ins. When checking in please give your call sign, first name and if you have any traffic or announcements for delivery later on this NET.

#3

First we will take anystation wishing to check in and out. Stations checking in and out contact NET control now.

#4

Next we will take any mobile or portable stations call NET control now.

#5

Are there any stations wishing to report any emergency or priority traffic?

#6

Now we will proceed with regular check-ins.

Any station within the city of Marion call NET control now.

Any station Northeast of the city call NET control now.

Any station Northwest of the city call NET control now.

Any station Southwest of the city call NET control now.

Any station Southeast of the city Call NET control now.

Any other station within range wishing to check-in call NET control now.

Go back through the list for announcements and traffic.

#7

We will now change from a formal to an informal NET any

station wishing to leave the NET may do so now. Any station with any further comments for the NET may call NET control now.

#8

Any station anywhere wishing to check-in call NET control now.

Hearing now further calls this is (call sign) your NET controler and i am closing this NET at (time) and returning this repeater to normal operations.
